7 PRO TIPS

for Mastering Your Next
(or First!) Zoom Meeting

- 1 Join a test meeting beforehand to test your speakers, microphone and webcam.
- 2 Encourage attendees to arrive early to test their own equipment.
- 3 Avoid hackers by securing your meeting with a password and utilizing the "waiting room" to approve who gets in.
- 4 Remind everyone to set their microphone to mute unless it's their turn to speak.
- 5 To avoid lag, schedule your meetings at "off" times, since most meetings are set for top or bottom of the hour.
- 6 Turn off alerts, especially if you're going to be screen-sharing.
- 7 Encourage use of the chatroom feature for questions or to be recognized as wanting to speak.
